***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims 1-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding independent claims 1, 14 and 31, in line 7, line 19 and line 3 respectively, Applicant claims "the remaining N active packets", which is unclear to Examiner as to exactly what Applicant is claiming. Examiner questions if Applicant is referring back to the previous limitation, which states "N+1 packet data serving nodes", because if that is the case, Applicant does not indicate that "N+1 packet data" is an active packet.

Regarding claim 1, Applicant is claiming in line 15, "***transmitting state*** from the selected PDSN to the standby PDSN" and in line 16, "***periodically updating state*** from the selected PDSN to the standby PDSN" which is unclear to Examiner exact what Applicant is claiming. Examiner questions if Applicant has left some additional wording out of claimed invention.
